

The Freerider™ iQ robotic cleaner is cordless, app controlled and equipped with a high-power lithium-ion battery. Highly efficient with the ability to clean all type of pool surfaces and the tightest of corners.

#### High Performance Cable Free Design

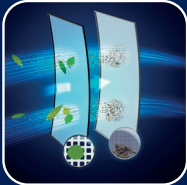

Free of its cable, FreeRider™ is easy to use and takes up little space. Long life lithium-ion battery. Do not expose charger to direct sunlight, rain, or inclement.

*Tip: To maximise the life of the battery and avoid deep discharge, we recommend to recharge the cleaner before entering winter and then recharge regularly to reduce the ageing of cells and reduce the energy consumption.*

#### Patented Cyclonic Suction Efficiency

Combining the constant power of its patented Cyclonic Suction with an impressive dual-stage filtration system, the FreeRider™ collects all types of debris with ease.

#### Dual-Stage Filtration

Two-layer progressive filtration system (150 micron/60 micron) collects both large and small debris. Transparent canister cover and LED makes the collected debris easily visible. Excludes FR500 iQ & FR200.

*The FR500 iQ & FR200 comes with 1 single 100 micron filter canister.*

#### Tap & Lift Removal System™

Easily retrieve the FreeRider™ by tapping it with a pool pole. It climbs the wall and drains water for quick, lightweight removal.

*Not available on FR200.*

#### Control At Your Fingertips

The App Control connectivity includes Battery/Charging status, 'Time to pick up' push notifications and a product tutorial.

#### Australia Based Customer Care

Zodiac has an unparalleled after sales network, providing high quality service all year round. Choose Zodiac's Australia-based customer care and in-field warranty service for a seamless, worry-free experience you can trust.
