

100% waterproof and mobile, No(t)mad provides light wherever you may need it: in the garden, in the house, in the pool, in a boat, on a camp-site, etc.

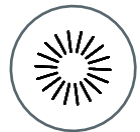

### Mobile

Using its magnetic base, it can be attached anywhere, even underwater!

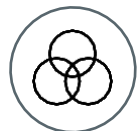

### Easy to use

Switch it on and off and change the colours and effects by simply pressing the central button on the optic lens! It could not be easier!

### Reliable

No(t)mad is available in white lighting or in a colour version. With a total of 7 colours and 3 automatic programs, it will bring so much colour to your surroundings!

### Fun feature

Push button on/off gives the kids hours of fun
