FloPro E3 1.0HP

Disclaimer: Pump purchase price is indicative only and reflects manufacturers RRP as at August 2022. Energy cost calculations are based on a 50,000 litre pool and a pump running time of 8 hours per day with an electricity pricing of 30 cents per KW. The FloPro Single Speed 1.0HP pool pump would run at high speed (it's only available setting) for 8 hours; the FloPro E3 1.0HP would run at eco (low) speed, medium speed and high speed at 6, 1 and 1 hours per day respectively.
